Contact page wireframe

Desktop - 1

The wireframe illustrates a contact page layout. At the top left is a placeholder for a logo. To its right is a horizontal navigation bar with links: Home, About, Skills, Portfolio, Blog, and Contact. Below the navigation, a section titled "Send me a message" contains four input fields: "Full name", "Email", "Subject", and "Message". A "Submit" button is located at the bottom of this section. At the very bottom of the page is a copyright notice: "Copyright @ 2023 Helena Rundid Co. All rights Reserved".

Components List

Text components

Website title

- A clear and accurate page title can help users quickly understand the content of the page and improve search engine ranking
- Using “ I ” to help me separate my name and page name
- Using favicon to help me reinforce brand recognition

Helena | Blog

Navigation bar

- Allows users to navigate and access different sections or pages
- hover effects: changing the text color

Home

About

Skills

Portfolio

Blog

Contact

Text components

Hamburger menu

- Provide a way to hide and show a navigation menu on smaller screens
- Using “≡” icon, placing in the top corner of the screen. When the user clicks the icon, the navigation menu slides out from the top of the screen, providing access to the various pages or sections of the website
- Color of the menu will change when screen size reaches a certain point

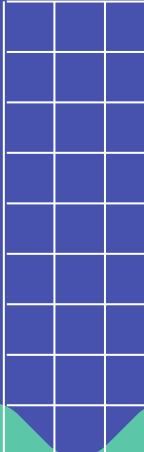

Text components

Introduction component

- Designed to display my personal information
- Highlighting keywords emphasizes my expertise
- An emoji to enhance the visual appeal

Hey👋, I'm
Helena Han
A Creative **Web Developer**

Text components

Description component

- Designed to display my experience
- Highlighting keywords emphasizes my expertise

I'm a Developer

I am very good at developing new things
and meeting customer needs.

With 5 years experience as a professional web developer,
I have stay up-to-date with the latest web technologies,
tools, and trends to ensure your projects a success.
I enjoy every step of design and coding, from discussion and collaboration.

Text components

Blogpost component

- Provides articles on topics related to the industry and theme
- Include a title, date, main content and relevant images
- Present written content in a structured and visually appealing way, and make it easier for users to read and engage with the content

Animating link underline

02 February 2022

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like). Lorem Ipsum is simply dummy text of the printing and typesetting industry.

Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Text components

Sidebar component

- Contains recent posts and provide quick access to other blogposts
- With the title and publication date of the post, and a short snippet of the post's content
- Hover effects: scale image
- Background image: linear gradient
- Provide a quick and convenient way for users to preview and access the website's blog content, which can increase user engagement

The image shows two cards from a sidebar component. The top card has a light blue background with a white grid pattern. It features a small image of a person at a desk, the title 'Animating link underline', the date '02 February 2022', and a snippet of text: 'Lorem Ipsum is simply dummy text of the printing and typesetting industry.' Below this is a 'Learn More' button. The bottom card has a black background with a colorful grid pattern. It features a small image of a person at a desk, the title 'A complete Grid to Flexbox', the date '07 Mar 2022', and a snippet of text: 'Lorem Ipsum is simply dummy text of the printing and typesetting industry.' Below this is a 'Learn More' button.

 0452000000

Text components

Footer

- Containing copyright notice about my company
- Providing important copyright information for website visitors
- Fixed the footer on the bottom of website
- Change the background color, text color

Copyright © 2023 Helena Rundid Co. All rights reserved

Graphic components

Logo

- Present my brand identity
- Color: same as the navigation bar
- Links with home page
- Hover effects: enlarge the image

Graphic components

Social accounts' buttons

- Displays icons for GitHub, LinkedIn, and Instagram
- links to my social media profiles
- Hover effects: text color will change

Graphic components

About me button

- Provides a link to the "About Me" page on the website
- Hover effects: button and text color will change

Download button

- Provides a link to my personal resume file
- Hover effects: button and text color will change

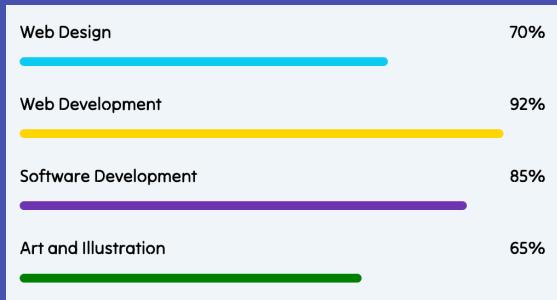

Graphic components

Animated progress bar

- Includes my level of proficiency in various skills
- links to my projects on GitHub
- Hover effects: text color will change

Graphic components

Service component

- Replaced the progress bars with corresponding images on smaller screen size
- Add text descriptions below each skill and service
- Both texts and images are clickable

I provide the following services

Web Design

I can design anything based on clients' need, including coding, programming and testing.

Web Development

I can design anything based on clients' need, including coding, programming and testing.

Graphic components

Portfolio cards

- Designed the portfolios in the form of cards
- Hover effects: enlarge the image
- Pseudo-elements: display projects name and link icons on tablet size screen
- Display links icons on mobile screen

Graphic components

Blog cards

- Designed the blogs in the form of cards
- Hover effects: enlarge the image
- Add a gradient background color

The image shows a horizontal row of five blog cards, each with a unique gradient background color. From left to right, the colors transition through orange, red, purple, blue, and green. Each card contains a small image, a title, and a date.

Image	Title	Date

	Appreciate for your hard work	13 May 2022
	Watch out for burnout symptoms	01 June 2022
	The ultimate HTML Cheat Sheet	20 September 2022

Review of my work

Challenges

Time:

I don't have enough time to perfect my website. Many of the content cannot be implemented due to time constraints

Responsive Design:

Ensuring that the website works and looks good on different screen sizes and devices was a complex and time-consuming task

Design and usability:

Creating a visually appealing and user-friendly website that effectively communicates the intended message and purpose can be a challenge

Review of my work

0

Favorite parts

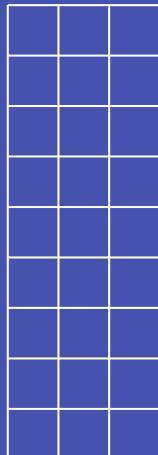

Hamburger menu

JavaScript: I have successfully implemented it, which gave me a sense of accomplishment

Animated progress bar

Entertainment: Animated progress bars can be entertaining and fun, making the user experience more enjoyable.
